

Futures.Cash

A Bank of Cryptocurrency

Whitepaper

Version 1.3

Futures.Cash

Introduction

FuturesCash has committed to develop an easy-to-use wallet application that enables anyone to earn, store, send and exchange crypto assets at their best convenience. Users across the globe can manage their cryptocurrency anywhere at anytime via FuturesCash.

In recent years, decentralized finance (DeFi) has emerged as an exciting innovation in Fin-tech, however, the complexity of the blockchain technology and its learning process result in limited entry for ordinary users. Therefore, FuturesCash assimilates banking services by simplifying the process and minimizing the risk; users will be able to benefit from the world of DeFi while enjoy the reliable bank-like services.

Futures.Cash

FuturesCash Background

Futures Foundation was founded in July, 2020 and has developed time and social mining mechanism based on Stellar Consensus Protocol. The foundation then launched the mobile mining application in October, 2020. The project is supported by more than 500,000 users in over 100 countries, especially in East Asia market.

In June, 2021, Futures Foundation set up Futures Lab in Hong Kong, managing and investing blockchain R&D and world-wide talents. Our team has proven experience of building, deploying and updating cryptocurrency related services, the born of FuturesCash is to let more and more people understand and use cryptocurrency.

Futures.Cash

The Meaning Behind FuturesCash Brand

FuturesCash's logo is modern with key elements that convey the orientation for growth, while representing our dynamic future.

The main shape of the logo is consistent with two Fs, the initials of FuturesCash. Symbolically, The image of interacting hands stands for the reliability of our service; the flaming shape denotes the thriving of DeFi; The chain represents blockchain and the rhombus represents Ethereum.

The color-tones are orange and yellow, orange represents passion and commitment, yellow represents honor and wealth.

Platform Highlights

FuturesCash aims to create an ideal environment for users to manage and invest their digital assets. FuturesCash guarantees the safety of each transaction and provides the best service for each user.

Security System

Security is our top priority. FuturesCash designs multi-signature and layered architecture to make sure each transaction is secure. Additionally, we will conduct regular external audit.

User Friendly

No major effect on lost private keys and higher backup possibility. Using FuturesCash is as simple as using banking app.

Strict Standard for Filtering Assets

FuturesCash combines the characteristics of digital assets with the experience of top platforms and regulatory agencies to form standards to select digital assets.

Community-Based

FuturesCash is an autonomous community-based platform, FuturesCash will reward 40% of its issued FCTs through the "Using is Mining" model. All FCT holders will participate in community governance.

Wallet that Makes Money

FuturesCash will actively promote marketing events such as airdrop, private sale, mobile mining etc. to achieve a win-win situation.

FuturesCash Token

FCT

FTC (FuturesCash Token) is issued by FuturesCash, The total number of FCT is set at 1 billion. FCT adopts a "Using is Mining" model to reward FuturesCash users. FCT holders have certain rights in governing the FuturesCash community: revenue distribution, decision-making and supervision.

Issuance of FCT

The total number of issued FCTs is set at 1 billion and will never increase. FCT is planned to list on exchange platform in Q4, 2021. FuturesCash upholds "Users are holders", utilizes "Using is Mining". FCTs under team and development and Futures Foundation will be released in tandem with the FCTs released via Using is Mining with a scale of 1:1.

Using is Mining

FuturesCash will distribute 40% of total FCT tokens (1 billion) among all users in terms of rewards for using FuturesCash. Rules and details will be announced.

Futures Foundation

All the FCTs in Futures Foundation is locked, the release of FCTs will be in tandem with Using is Mining in a scale of 1:1. The FCTs will be used for strategic investment and partnership purposes.

Airdrop

Users can attend airdrop events by participating in mobile mining activity. We will collect the data, calculate the total yield for each active user and give away FCTs accordingly. Details and rules will be announced

Private Sale

No lock-up limitation. Details will be announced.
